

Dt: 18.07.2022

Mahagenco's Future Thermal Power Projects:

1) Uran GTPS Replacement project:

- MSPGCL has proposed Replacement Project of @850MW of Combined Cycle Power plant at GTPS, Uran with installation of Two New advanced F-class machines, at land available in Uran GTPS premises.
- Pre tendering activities are in process. After obtaining necessary clearances from GoM, MERC & concurrence from MSEDCL, tender for installation of project shall be floated.
- Existing APM Gas allocation shall be utilized for this project.
- Expected date of completion of project is FY 2025-26.

2) Koradi Thermal Power Project (2x660 MW):

- MSPGCL has proposed 2x660 MW coal based super-critical power project, on land of closed unit and available land in existing premises of Koradi TPS.
- Government of Maharashtra has given in-principle approval for implementation of the project.
- MERC also has accorded in-principle approval to the proposal.
- Term of Reference (TOR) is received from MoEF&CC. Presently, Environmental Impact Analysis as per TOR issued by MoEF&CC is in progress.
- As per directives by GoM dated 17.06.2020, the revised proposal regarding implementation of project with due consideration of future power scenario, RE generation, RPO and other relevant aspects, shall be submitted to GoM for approval.
- Expected date of completion of project is FY 2028-29.

----o----

DETAILS OF SOLAR PROJECT:-

PROJECTS IN PIPELINE :

1. 25MW Sakri-II,
2. 2MW rooftop at KTPS & CSTPS,
3. 105MW Erai Floating solar project,
4. 245MW Solar Project at Washim & Yavatmal,
5. 145MW solar project at Kacharala,
6. 62.5MW Paras Bundling solar project,
7. Green Hydrogen(20Nm³/Hour)
